

How It Works

For when you need to generally explain to your business diners how the Dinova marketplace benefits them and what actions they need to take.

SEARCH. Whenever a business dining opportunity arises, use Dinova's search tool or mobile app to see which of the 16,000+ restaurant locations in the Dinova marketplace meet your needs.

DINE. Enjoy your meal – whether you're eating in the restaurant, carrying it out, ordering catering, or making arrangements for a private dining event, all business dining meals at Dinova marketplace restaurants count.

PAY. Use your corporate credit card to pay for your meal.

SAVE. [Your company] earns a rebate on every dollar you spend on business dining in the Dinova marketplace.

EARN. When you register your corporate card with the myDinova Rewards program, every dollar you spend at Dinova restaurants also earns you your own personal dining rewards.

[NOTE: The EARN part of this description only applies to employees of companies that have elected to participate in the myDinova Rewards program. If your company has decided not to participate in myDinova Rewards, leave the EARN phrasing out of your description.]
