

By Partnering with dinova™ We're Making Business Dining Better for Our Bottom Line

With more than **18,000 restaurant locations** across the United States,
Dinova is our company's preferred business dining network.

We're pleased to let you know about our partnership with Dinova – a unique business dining network that recognizes not only how important the overlap between business and mealtimes can be, but also acknowledges the significant impact that dining has on our T&E budget.

Here's What This Means for You

Whenever you have a business dining need – travel meals, catering, client meetings, etc. – Dinova's in-network restaurants are our company's preferred options.

Why? Because our company earns a rebate every time you use your corporate credit card to dine with these restaurants.

Here's How It Works

- Use Dinova's online search tool (search.Dinova.com) or download the mobile app to search for in-network restaurants whenever you're deciding where to dine for your expensable business meals.
- Dine at the restaurant of your choice.
- Pay as usual with your corporate credit card.
- Save the company money by dining in policy.

You have the flexibility to dine as you like, knowing you're complying with company travel and expense policy, while also adding restaurant rebate money to the company's bottom line.

Don't Forget to Download the Dinova Restaurant Locator App!

Visit search.Dinova.com or download Dinova's mobile app to find preferred restaurant options for:

- Business travel meals
- Meals with clients
- Lunch and dinner meetings
- Team celebrations ... and more!
